

Anthro – It's The Way EMR Furniture Should Be

eNook® Pro

1

Significant Weight Capacity

The work surface holds up to 50 lbs, and the entire structure supports up to 75 lbs.

2

Monitor Options

Tilt the monitor to find a comfortable viewing angle – whether you're 5'2" or 6'2"! Add another monitor rail to display a second monitor.

3

Adjustable Depth

Adjust the overall depth of the unit from 7.25" to 8.25" to fit your monitor and give you the best possible view.

4

Roomy worksurface

The door opens to reveal a roomy worksurface (30"w x 16"d on the larger model).

5

Code Lock

eLock up the eNook Pro so your equipment is safe and secure. Numbered code lock has three security codes.

Contemporary Colors

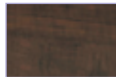

Choose from three standard finishes – Maple, Cherry, and Walnut – or upgrade to Kydex®-brand anti-microbial laminate.

Maple

Cherry

Walnut

6

Cable Management

Use the enclosed twist clips to route cords and cables down to the cable area at the bottom of the unit. Your work area stays free of clutter!
