

# M7 Flat Panel Monitor Arms

The award-winning M7 line of monitor arms features effortless adjustment, perfect stability, sleek aesthetics, and can be configured for any workstation, including applications requiring multiple monitors.

***Designed by Manuel Saez***

*Design Director for Humanscale, Manuel has been recognized with numerous international design awards. His honors*

*include The Chicago Athenaeum GOOD Design Award, the Focus Balance Award, the Industrial Design Excellence Award and the Best of NeoCon Gold. Manuel is also a professor of product design at Pratt Institute in New York City.*

The M7 is the most easily adjustable, stable and elegant line of flat panel monitor arms on the market. Built to demanding specifications, any of the M7's countless configurations will allow users to take full advantage of the benefits of flat panel technology. And they're environmentally-friendly too, composed of 90% recycled materials and packaged in recycled paper products.

## FEATURES

- Offers effortless, 3-dimensional adjustment to provide ideal monitor positioning for different tasks and users
- Post design maximizes space savings by occupying less space over the desk than "first-generation" arms
- Gas spring height adjustment allows finger-touch movement to encourage adjustment and minimize risk of back injury
- Installs quickly and easily with 8 different mounting options for any environment (any desk, counter, wall, ceiling, etc.)
- Die-cast aluminum frame structure and extended vertical hinge create unmatched stability (tested to support 300 lbs.)
- Static adjustment (adjustable height setting) accommodates any user size and monitor height
- Up to 8" dynamic adjustment (finger-touch, intuitive) allows user to easily position monitor for optimal comfort relative to specific task (leaning back, writing, standing, etc.)
- Award-winning design is perfect blend of high function and aesthetic design
- Built-in cable management
- Environmentally-friendly: fabricated from 90% recycled materials (including 100% recycled aluminum) and are 96% recyclable
- Options to meet every specific need: quick release, security, touch screen, rotation stop, heavy monitors, special applications, etc.

## SPECIFICATIONS

- Up to 8" dynamic height adjustment, 24" depth adjustment and 50" lateral adjustment
- 360° monitor rotation for portrait or landscape viewing
- 60° range of monitor tilt for added adjustability
- Made of die-cast aluminum and stamped steel
- Multiple gas-spring options to support monitors of any weight
- Mounts designed for any desk style and thickness, wall support, ceiling support, undersurface support (inside cabinets, etc.), any standard slat wall
- 10-year warranty on gas spring, Lifetime warranty on all other components
- Available in black, silver or polished aluminum.

M7 Fixed Wall Mount

M7 Adjustable Wall Mount with 3.25" dynamic height adjustment

Available with standard slat wall bracket or optional dry wall mounting bracket

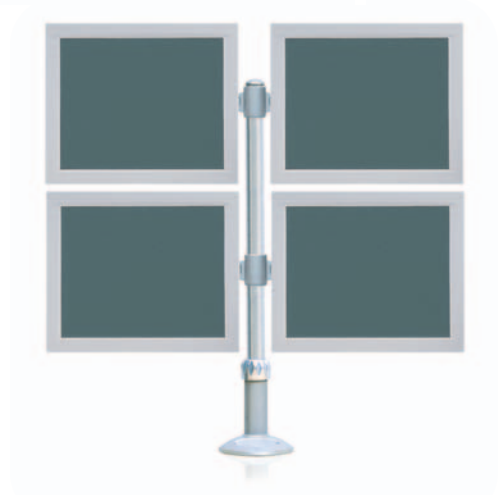

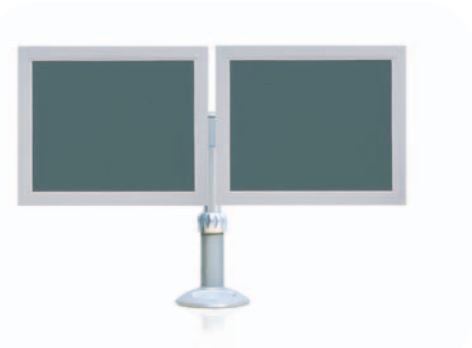

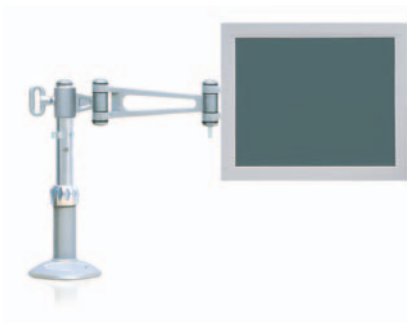

## BUILD YOUR OWN (BYO) M7 (FOR 1 TO 8 MONITORS)

This versatile product allows you to choose from 8 different mounts, 1 or 2 monitor high posts, up to 3 monitors per level, supported by up to 5 different arm length configurations to meet any requirement you may have in any environment. Choose a Mounting Post, Bracket(s), Arm(s) and optional Quick Release Bracket to create your own customized M7 solution.

**Meet the needs of every individual with the only monitor arms offering dynamic and static height adjustment in one package.** The static adjustment (adjusting bracket on post) meets the height requirements of 100% of the population and supports any size monitor. The dynamic adjustment (finger-touch height adjustment of post) allows users to easily change monitor position based on the different tasks performed throughout the day. Combined, these two adjustments make the M7 the most unique and ergonomic flat panel monitor arm available.

### Configuration Options

- 8 mounts
- 2 post heights
- Fixed posts or gas cylinder-assisted height adjustable posts
- 5 arm lengths
- Security or Quick Release
- Custom options available

**Our Design Philosophy** At Humanscale, we believe the best designs in the world are based on purpose and function. If a design solves a functional problem as simply and elegantly as possible, the resulting form will be honest and timeless.
