

An all-in-one ergonomic, organizational and space-saving solution.

Access Rail

The Access Rail is a coordinated and unique rail system that adds space to any desk or workstation, creates better organization of desktop tools, and improves the user's access to and interaction with those tools for better working comfort. Designed for use in PACS environments, NOCS, Command and Control Centers, 911 Centers and wherever multiple monitors are used or desktop space is limited. Also ideal for benching applications.

Features

- Rail and post components can be infinitely configured
- Mounts to any work surface
- Rails available in many standard lengths
- Rails can be mounted to posts in 30" increments for non-linear applications
- Accessory components available for mounting monitors, laptops, telephones, printers, task lights, paper management and organizational trays
- Easy installation
- Made predominantly of aluminum
- 98% recycled and 100% recyclable
- Brushed aluminum finish
- Lifetime warranty

Our Design Philosophy: *At Humanscale, we believe the best designs in the world are based on purpose and function. If a design solves a functional problem as simply and elegantly as possible, the resulting form will be honest and timeless.*
