

# L2 Notebook Manager

**For serious laptop work, our L2 Notebook Manager is a must,**

with a swivel base, height adjustment, wire management and built-in document holder.

By plugging in a full size keyboard and mouse, laptop users can work in desktop comfort.

**Designed by Manuel Saez**

*Design Director for Humanscale, Manuel has been recognized with numerous international design awards. His honors include The*

*Chicago Athenaeum GOOD Design Award, the Focus Balance Award, the Industrial Design Excellence Award and the Best of NeoCon Gold. Manuel is also a professor of product design at Pratt Institute in New York City.*

**Designed by Lachezar Tsvetanov**

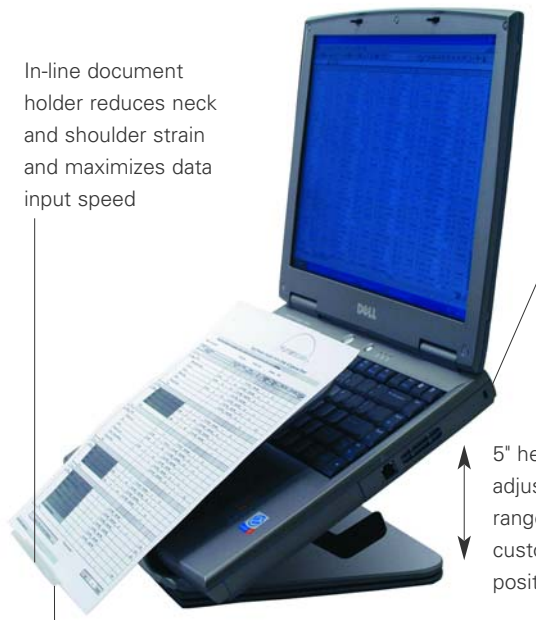

*Lachezar Tsvetanov, Humanscale designer, is the recipient of several design awards. His work is part of the permanent collection of The US*

*Library of Congress and has been featured in numerous publications, including Abitare, AXIS, Innovation, The New York Times and The Washington Post.*

**Use of a laptop holder can greatly improve the comfort of laptop users, while minimizing the musculoskeletal consequences of prolonged laptop work. Many laptop holders allow – and some even promote – use of the laptop keyboard while it is in a raised position. Working in such a way will greatly increase the risks of Carpal Tunnel Syndrome and other repetitive strain injuries. The only safe laptop holders are those that block access to the laptop’s keyboard to prevent users from inadvertently putting themselves at risk.**

**FEATURES**

In-line document holder reduces neck and shoulder strain and maximizes data input speed

Document holder blocks keyboard access, requiring use of external keyboard and mouse to prevent high-risk postures

Fits any notebook with a base thickness of up to 2.1" (will accommodate many docking stations)

5" height adjustability range for custom screen positioning

Cord manager keeps power and peripheral cords tidy and ready for use

360° swivel encourages collaboration

Security feature allows L2 to be locked to desk and/or notebook using Kensington-type lock

Non-skid pads protect notebook and work surface

**SPECIFICATIONS**

- 5" continuous height adjustability (bottom of screen can adjust from approximately 5" to 10" above work surface)
- 360° swivel
- Dimensions: 10" L x 10.5" W x 8.75" H
- Weight: 10 lbs.
- Constructed of sheet metal, polypropylene and ABS
- Color: Silver
- 98% recyclable
- Lifetime Warranty
- Product Code: L2

**Our Design Philosophy** *At Humanscale, we believe the best designs in the world are based on purpose and function. If a design solves a functional problem as simply and elegantly as possible, the resulting form will be honest and timeless.*
