

PRODUCT PERSPECTIVE: KVM DRAWERS

PS/2 KVM DRAWERS

PS/2 KVM Drawer with 15" or 17" LCD Monitor

The RACKMUX® PS/2 KVM Drawer combines a rackmount LCD monitor, PS/2 keyboard and PS/2 touchpad mouse in a space-saving 1RU industrial strength drawer. It is available with a 15" or 17" Active Matrix LCD flat panel monitor. The RACKMUX-P15 supports 1024x768 video resolution and separate TTL level sync. The RACKMUX-P17 supports 1280x1024 resolution and composite sync and separate TTL level sync. Both drawers are equipped with On Screen Display (OSD).

Dual Slide PS/2 KVM Drawer

The RACKMUX® Dual Slide PS/2 KVM Drawer combines a rackmount LCD monitor, PS/2 keyboard and touchpad mouse in a space-saving 1RU industrial strength drawer. The unique "dual rail" design allows the keyboard and LCD to move independently of each other enabling casual monitoring of connected systems through the closed glass door of a server rack. The RACKMUX-P15-DS supports 1024x768 video resolution and the RACKMUX-P17-DS supports 1280x1024. Both drawers are equipped with On Screen Display (OSD).

Compact Depth PS/2 KVM Drawer, 14" Deep

The RACKMUX-P10 combines a rackmount LCD monitor, PS/2 keyboard and PS/2 trackball mouse in a space-saving 1RU industrial strength drawer. It is available with a 10.4" Active Matrix LCD flat panel monitor. The drawer fits in racks/cabinets 14.5" deep and greater. The drawer is equipped with On Screen Display (OSD) and supports 1024x768 video resolution.

PS/2 Keyboard Mouse Drawer

The RACKMUX-KT Rackmount Keyboard Drawer combines a PS/2 keyboard and trackball mouse in a space-saving 1RU industrial strength drawer.

USB KVM DRAWERS

USB KVM Drawer with 15" or 17" LCD Monitor and Touchpad Mouse

The RACKMUX® USB KVM Drawer combines a rackmount LCD monitor, USB keyboard, USB touchpad mouse in a space-saving 1RU industrial strength drawer. It is available with a 15" or 17" Active Matrix LCD flat panel monitor. The RACKMUX-UW15 supports 1024x768 video resolution and composite sync and H/V separate (TTL) sync. The RACKMUX-UW17 supports 1280x1024 resolution and composite sync, H/V separate (TTL) sync and Sync on Green. Both drawers are equipped with On Screen Display (OSD).

SUN USB KVM Drawer with 17" LCD Monitor

The RACKMUX-US17 SUN USB KVM Drawer combines a rackmount LCD monitor, SUN USB keyboard and 3-button trackball mouse in a space-saving 1RU industrial strength drawer. It is available with a 17" Active Matrix LCD flat panel monitor and supports 1280x1024 video resolution.

USB or PS/2 KVM Drawer with Real Mouse

The RACKMUX® USB or PS/2 KVM Drawer with Real Mouse combines a LCD monitor, USB or PS/2 keyboard, and USB or PS/2 real mouse with mouse pocket in a space-saving 1RU industrial strength drawer. It is available with a 15" or 17" Active Matrix LCD flat panel monitor. The 15" model supports 1024x768 video resolution and the 17" model supports 1280x1024. All of the models are equipped with On Screen Display (OSD) and support separate TTL level sync.

KVM DRAWERS WITH INTEGRATED KVM SWITCHES

PS/2 KVM Drawer with Universal KVM Switch

The RACKMUX-Pxx-xUNV combines a rackmount LCD monitor, PS/2 keyboard, PS/2 touchpad mouse and NTI's NODEMUX® 4- or 8-port Universal KVM Switch into a space-saving 1RU industrial strength drawer. It is available with a 15" or 17" Active Matrix LCD flat panel monitor. The 15" models (RACKMUX-P15-xUNV) support 1024x768 video resolution and the 17" models (RACKMUX-P17-xUNV) support 1280x1024 resolution. With the built-in switch, you can control up to eight PC and SUN computers.

USB KVM Drawer with Built-In CAT5 KVM Switch

The RACKMUX® USB KVM Drawer with Built-In CAT5 KVM Switch combines a rackmount LCD monitor, keyboard, trackball mouse and NTI's PRIMUX™ Zero-U KVM Switch via CAT5 into a space-saving 1RU industrial strength drawer. It is available with a 15" or 17" Active Matrix LCD flat panel monitor. The 15" model, RACKMUX-15-PRIMUX, supports 1024x768 video resolution and the 17" model, RACKMUX-17-PRIMUX, supports 1280x1024 resolution.

With the built-in switch, you have the capability to control up to 64 servers from 1,000 feet away. It is compatible with PS/2, SUN, and USB-enabled PC, SUN, and MAC computers. One platform-specific (PS/2, SUN or USB) HA-x host adapter is required for each computer.

USB KVM Drawer with Built-In USB KVM Switch

The RACKMUX® USB KVM Drawer with Built-In USB KVM Switch combines a rackmount LCD monitor, keyboard, touchpad mouse and NTI's UNIMUX™ 4 or 8-port USB switch in a space-saving 1RU industrial strength drawer. It is available with a 15" or 17" Active Matrix LCD flat panel monitor. The 15" models (RACKMUX-UW15-xUSB) support 1024x768 video resolution and the 17" models (RACKMUX-UW17-xUSB) support 1280x1024 resolution. With the built-in switch, you can control up to eight USB-enabled PC, SUN, and MAC computers.

SUN USB KVM Drawer with Built-in USB KVM Switch

The RACKMUX-US17-xUSB SUN USB KVM Drawer with Integrated USB KVM Switch combines a rackmount 17" LCD monitor, SUN USB keyboard, trackball mouse, and NTI's UNIMUX™ 4- or 8-port USB KVM Switch into a space-saving 1RU industrial strength drawer. The drawer supports 1280x1024 video resolution and is equipped with On Screen Display. With the built-in switch you can control up to eight USB-enabled PC, SUN, or MAC computers.

TERMINAL DRAWERS

ANSI Terminal Drawer

The RACKMUX-T15 Terminal Drawer communicates with serial devices, such as routers, servers, bridges, firewalls and hubs. It combines a rackmount 15" LCD monitor and keyboard in a space-saving 1RU industrial strength drawer.

Rackmount Console Terminal Drawer with SSH Secure Console Switch

The RACKMUX-T15-SS8 combines a rackmount terminal and a SSH secure console switch into a space-saving 1RU industrial strength drawer. With the built-in switch, you can securely and intelligently monitor and control eight RS232 network devices. It provides remote control of servers, switches, routers, LAN/WAN components, power supplies and PBXs through a single interface.

Rackmount Terminal Drawer with Console Switch

The RACKMUX-T15-RSx combines a rackmount terminal and a console switch into a space-saving 1RU industrial strength drawer. With the built-in switch, manage up to 16 serial devices, including servers, switches, routers, and telecom gear through a single interface.
