

## MONITORS

### 1RU TFT/LCD Monitor Drawer

The RACKMUX® Rackmount TFT/LCD Monitor Drawer consists of a 15" or 17" flip-up monitor, which maximizes rack space and allows for viewing through closed glass door of a cabinet. The RACKMUX-HV15 supports 1024x768 video resolution, and the RACKMUX-HV17 supports 1280x1024 video resolution. Both drawers are equipped with On Screen Display (OSD).

### 7RU TFT/LCD Monitor

The CRYSTALMON™ CM-RK17 Rack Mount 7RU 17" TFT/LCD Monitor provides the industrial or commercial user with superior picture quality. It supports 1280x1024 video resolution, and is equipped with On Screen Display (OSD). An optional built-in KVM or VGA extender is available allowing you extend the CRYSTALMON monitor up to 600 feet from the computer. It is available with an optional anti-glare protective glass. Complies with CE standards.

### Wall Mount TFT/LCD Monitor

The CRYSTALMON™ CM-WL17 Wall Mount 17" TFT/LCD Monitor provides the industrial or commercial user with superior picture quality. It supports 1280x1024 video resolution, and is equipped with On Screen Display (OSD). It features keyholes for mounting to a wall, and is compliant to VESA 75mm and 100mm mounting hole patterns. It is compatible with NTI's LCD arms. An optional built-in KVM or VGA extender is available allowing you extend the CRYSTALMON monitor up to 600 feet from the computer. It is available with an optional anti-glare protective glass. Complies with CE standards.

### Desktop TFT/LCD Monitor

The CRYSTALMON™ CM-DT17 Desktop 17" TFT/LCD Monitor provides the industrial or commercial user with superior picture quality. You can adjust the height, tilt and rotation of the monitor for the best viewing position. It supports 1280x1024 video resolution, and is equipped with On Screen Display (OSD). An optional built-in KVM or VGA extender is available allowing you extend the CRYSTALMON monitor up to 600 feet from the computer. It is available with an optional anti-glare protective glass. Complies with CE standards.

### Rackmount Three Screen LCD Color Video Monitor

The RACKMUX-3L-2U is a rack mountable unit that offers three 4" high-resolution active matrix LCD panels in 2RU. It consists of two composite video inputs with active loop-through capability for each screen. It supports 480x234 video resolution. Complies with CE standards.

### Rackmount Four Screen LCD Color Video Monitor

The RACKMUX-4L-2U is a rack mountable unit that offers four 4" high-resolution active matrix LCD panels in 2RU. It consists of composite video inputs with active loop-through capability for each screen. It supports 480x234 video resolution. Complies with CE standards.

### Rackmount Eight Screen LCD Color Video Monitor

The RACKMUX® Rackmount Eight Screen LCD Color Video Monitor is a rack mountable unit that offers eight 1.8" high-resolution active matrix LCD panels in 1RU. The RACKMUX-8L-1U is available with composite video inputs and the RACKMUX-8LSDI-1U consists of SDI video inputs. Both models have active loop-through capability for each screen and support 280x220 video resolution. Complies with CE standards.

## MONITOR ACCESSORIES

### LCD Monitor Arms

The LCD Monitor Arms and Mounting Brackets are designed to allow effortless height, tilt and rotation adjustment of the monitor by hand. Ruggedly constructed from lightweight aluminum alloy, the arms mount easily on a wall allowing the user to save desktop space while providing maximum viewing flexibility. Four types of arms/brackets are available, including Wall Mount LCD Arms (ARM-WL-LCD-xx), Wall Mount LCD Arm with Keyboard/Mouse Holder (ARM-WL-LCDKB-L), Wall Mount LCD Bracket (ARM-WL-LCD-BR), and the Wall Mount Keyboard/Mouse Bracket (ARM-WL-KB-BR).
